Presidents Report

Hi everyone,

I hope you are keeping those creative juices flowing in spite of the restrictions for Covid. Lots of members have been taking the time to brush up on a variety of indoor photography techniques, including still life, macro and learning new post processing methods. The Club is continuing to embrace the Zoom program delivery method and has enjoyed good participation levels. We have also had some additions to membership along the way. I want to take this opportunity to welcome our new members to the club.

Some club outings have continued with members respecting the Covid-19 guidelines, however the most recent lockdown has hampered these activities due to group size restrictions.

Several members have taken the NFRCC Judging course and feedback has been good. Hopefully we will see some new judges develop over time.

Canvassing for next year's Extended Board has begun and I would ask that each of you strongly consider participating in some way to support the club. We still have vacancies for the VP position and are seeking candidates for the Editor of Tripod Topics, as well as potential candidates for the Digital Recorder role.

Please remember to submit your images for the upcoming club competitions and remember to enroll in the [CANAM Photo Expo Virtual Conference](#) **April 16,17 & 18, 2021**. Class schedule will posted by March 7th.

I wish everyone a wonderful season of winter and spring shooting. I am looking forward to seeing your photographic skills on show!

Sincerely,

Steve Hops

Ps. We are always seeking new ideas and suggestions to improve. Please feel free to send them in to us via the club's email at stcphotoclubcanada@gmail.com

Message from the Editor

Hello Everyone:

Hello Everyone: It is good to see members on Zoom, but, I can't wait to see everyone in person again, it will be quite the treat. I have been doing quite a lot of indoor photography during the lockdown, honing my skills for macro and table top still life photos. Learning new skills has kept me busy and intrigued. There have been some really good webinars to watch while we stay safe at home, that will help people learn a new skill and keep busy. Practicing indoor photography and watching youtube channels to get our creative side motivated helps while we are in lockdown, try checking them out. Looking forward to the CANAM Expo in April this year, I am sure they will have a great lineup of speakers for us to listen to. In the meantime,

Take care, stay safe,

Happy Shooting!
